Name: Arianna Salazar Miranda
Affiliation: Massachusetts Institute of Technology (MIT), United States

Dear Dr. Arianna Salazar Miranda,

Invitation Letter

We are pleased to invite you to join your attendance at the City+2023@Perth International Conference as a Session Chair. The City+2023@Perth International Conference will be held in Perth, Australia, from 8th to 10th September 2023.

City+ research network is organising annual international conferences for early career researchers and PhD students on urban studies. To date, our conferences have already attracted more than 320 delegates coming from many universities and institutions across countries in Africa, Asia, Europe, and North America. It has demonstrated its potential to be a good platform to share research experiences and thinking, develop cooperation opportunities, and address their urban concerns from multiple perspectives.

Kind regards,

Yongze Song
City+2023@Perth Conference Chair
